

Packaging Material Classification Regulation (EU) 2025/40 (PPWR)

Information on Separation and Disposal

In accordance with the requirements of the Packaging and Packaging Waste Regulation (PPWR), we provide below the material classification of the packaging materials we use. Please dispose of the individual packaging components via the designated collection and recycling systems in accordance with the applicable national regulations.

Article Group	Material Classification*
• Stretch film • air cushion film • film bags • film pack pads	LDPE 04
• PP strapping band	PP 05
• PET strapping band	PET 01
• Film/Paper shipping envelope	LDPE 04, PAP 22
• Corrugated cardboard box	PAP 20
• Paper adhesive tape • paper filling material	PAP 22
• Wooden packaging material, wooden pallets	FOR 50, FE 40
• Clamps, staples	FE 40

*Material codes according to the applicable identification system.

Notes

- Not every shipment contains all packaging components listed above.
- The actual packaging materials used may vary depending on the product and shipping method.
- Please separate packaging components by material type wherever possible to enable high-quality recycling.
- Observe the disposal regulations applicable in your country or region.
